

Engineering Research Centers

Gen-4 ERC:

Research Thrusts and  
Testbeds

NSF 19-503

Kickoff Meeting  
October 14-15, 2020

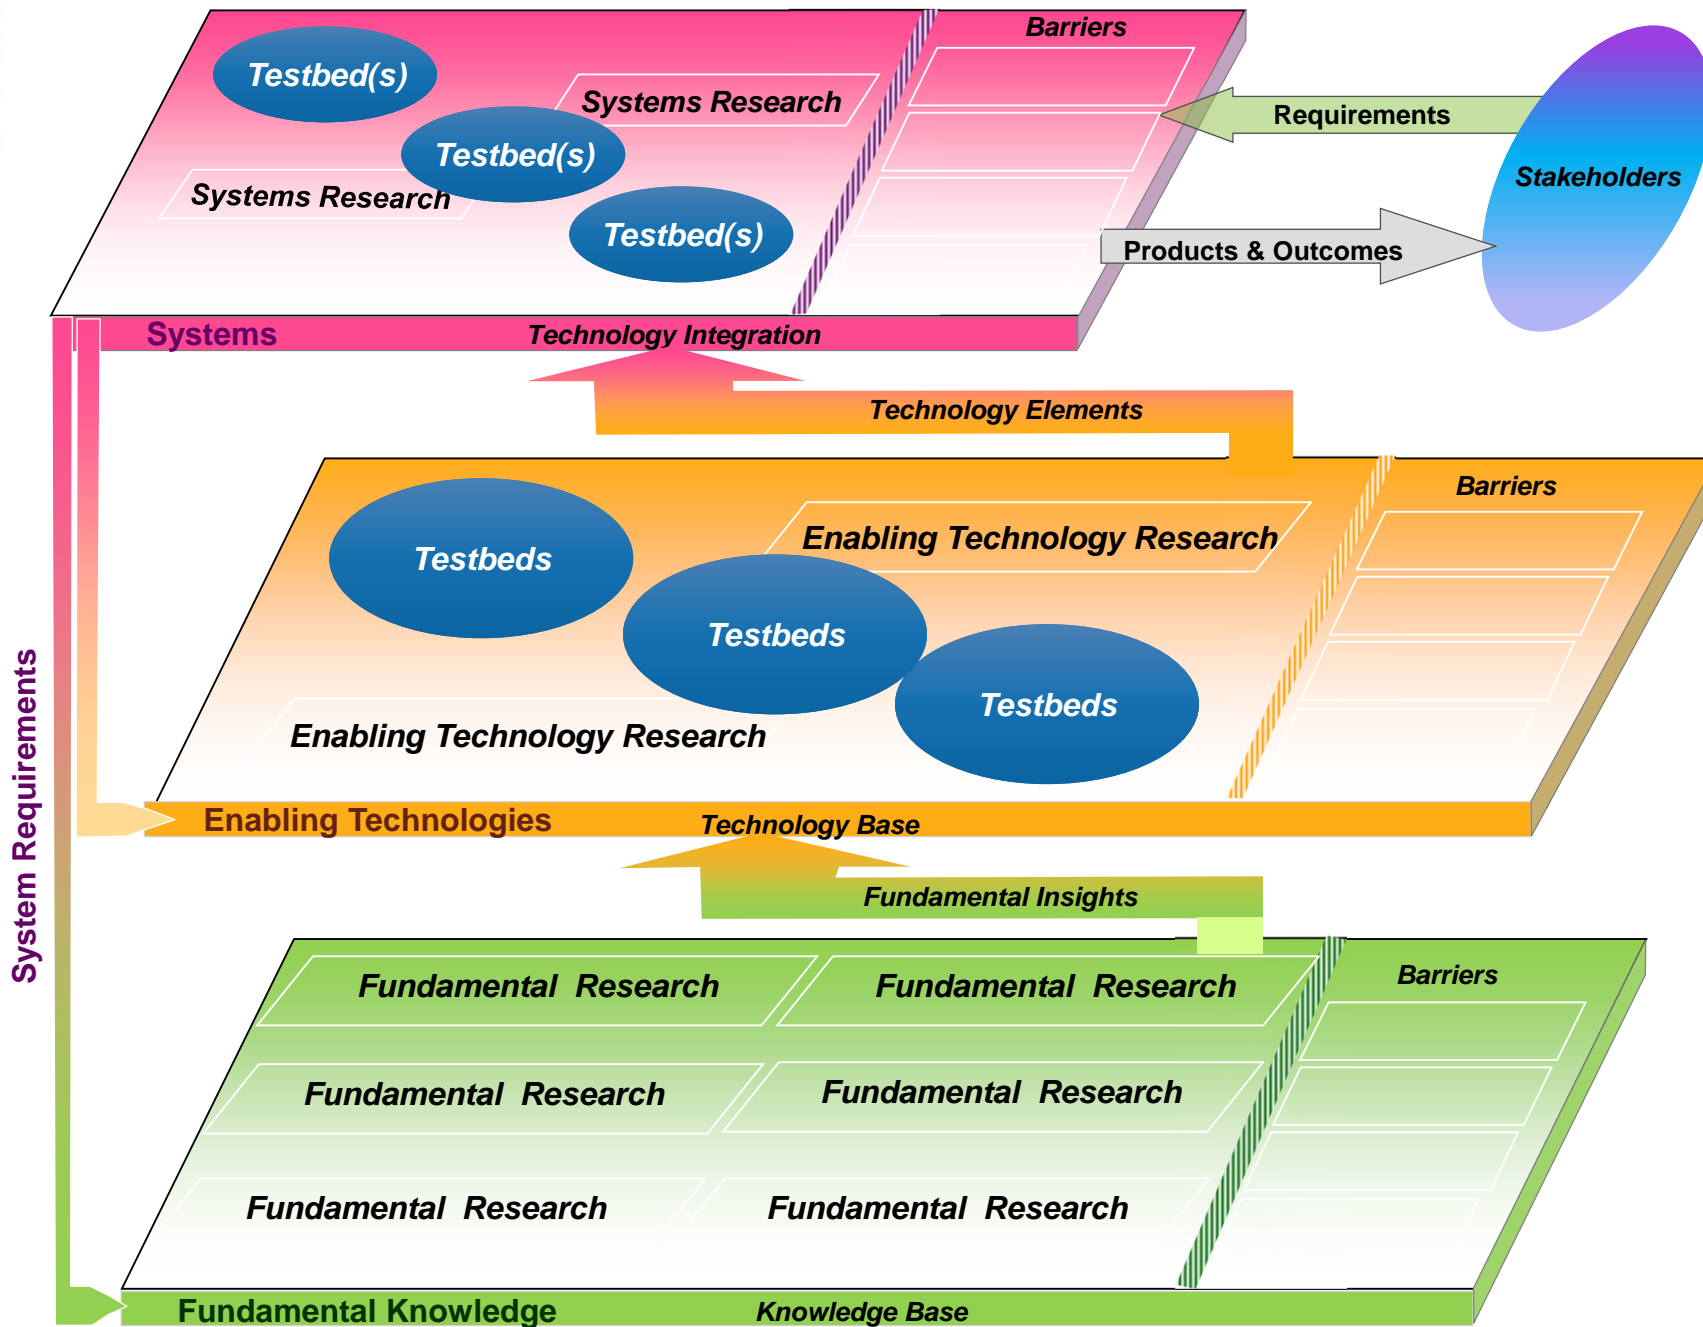

Nadia El-Masry, ENG/ERC Program  
Director

ERC

# Outline

- Three Plane Chart
- Convergent Research Evaluation criteria
- Research Thrusts Evaluation criteria
- Expectations: ERC Research Thrusts
- Testbeds evaluation
  - Testbed level of Maturity
  - High-Quality Testbeds
- Role of Thrust Leaders

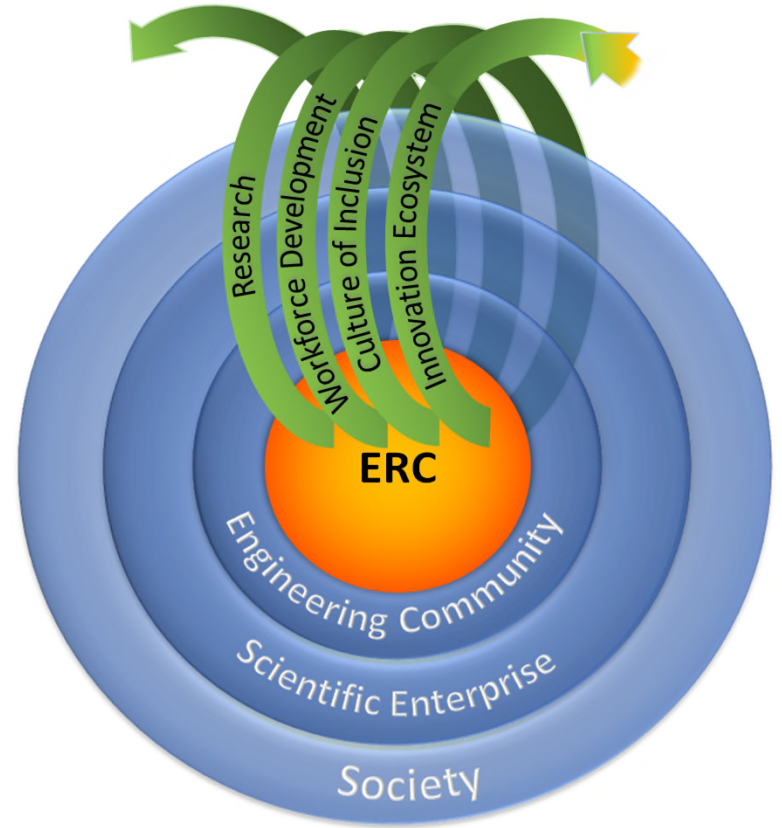

# 3-plane Chart

# Convergent Research Evaluation criteria

- a. Research Output
- b. Engineered System
- c. Convergence
- d. Societal Impact

# Research Thrusts Evaluation criteria

Research Thrusts (evaluated independently per thrust)

i. Relevance

i. Interdependence

ii. Methodology

iii. Project Management

# Expectations: ERC Research Thrusts

- Thrust and its projects designed to contribute to the goals and vision of the ERC
- Significant research barriers/challenges being addressed through transformative convergent research to deliver powerful scientific discoveries
- Strategic project selection is the key - leverage external inputs
- Communications and interactions among thrusts are critical to the success
- Thrusts aligned with testbeds – design translational research from beginning

# Testbeds are evaluated based on:

- i. Level of Maturity
- ii. Engineered System
- iii. Function in Research
- iv. Role in Partnerships
- v. Performance Benchmarking

# Testbed level of Maturity

**Early**: The ERC has begun to define requirements for the testbeds derived from the vision and systems goals of the ERC

**Developing**: The ERC has successfully implemented some of its near-term testbed milestones. Long-term test bed goals continue to push the state of the art.

**Mature**: The ERC has established, clear requirements for the testbeds derived from the vision and systems goals of the ERC.

# High-Quality Testbeds

- Technology Integration
- Function in Research
- Role in Education
- Assessment
- Guidance

# Role of Thrust Leaders

- Sets thrust goals considering vision and strategic plan
- Manages teams of faculty and students effectively
- Coordinates project selection and integrate projects within thrust
- Delivers results across thrusts through effective communication

# Questions?

*Please bring your questions to the Kickoff meeting*
